

SOLAR[®]

Power Inverters

SOLAR power inverters, featuring Sonic Compression Technology™, deliver clean, reliable power from a 12 Volt power source to a wide variety of power equipment and appliances. Our 150 Watt model, the PI1500X, utilizes a perfect shape and size for convenient in-vehicle use. It features one 115V AC outlet plus one USB outlet to power a wide variety of small electronics and appliances.

Perfect for On-the-Go Power

The PI1500X features an ideal shape for on-the-go power, in or out of a vehicle. It is powered by a 12V adapter that is plugged into a vehicle's 12V power port. Its shape is perfect for vehicle cup holders and its AC and USB outlets are positioned on the top of the unit for easy access in a vehicle.

Safety Features

SOLAR power inverters feature short circuit protection, fault leakage protection and under/over voltage protection to ensure safe operation of the inverter for the operator and all powered equipment.

SONIC COMPRESSION

SOLAR power inverters utilize a proprietary modified sine wave to provide stable, clean and reliable power throughout the operating range of each model. This results in smooth, consistent operation for powered electronics and appliances.

	Continuous Power	Peak Power	115V Outlets	USB Outlets	Power Connection

SONIC COMPRESSION

The 150W Power Inverter Counter Display, PI1500XCD, is a great merchandising tool to drive sales of this convenient device.

It prominently addresses the key benefits of the product for consumers, highlighting the product's ability to provide household AC power inside a vehicle.

The display maximizes exposure of the product at the point of purchase, creates added awareness that such a convenient device exists and drives impulse sales. It makes efficient use of space, has high impact graphics and takes just seconds to assemble.
