Works with tonneau covers or truck caps	Yes	No

* Comes Fully Assembled

- The Universal Fold-Down Bed Expander has a telescoping design that allows it to fit any tailgate.
- Mounts directly to tailgate, using stainless steel brackets and hardware.
- Does not attach to truck bed, like competitive models.
- Folds down flat on tailgate.
- Anodized or powder coated aluminum construction to resist corrosion.
- Adds up to 30% more cargo space.
- Disappears when tailgate is folded up.
- Takes up only 5" of cargo space.
- Entire unit weighs only 17 pounds and is easily removed with two release pins.
- Comes fully assembled.

BX4004-02 Black

Open tailgate.

Lift up.

Fold out arms.

Tire Hopper

Tire Step

No Assembly Required

- Universal tire mount step fits SUV's, cars, trucks vans and RVs.
- Unfold step, slide strap over tire and step up.
- Step up safely to reach rooftop cargo.
- No assembly required, ready to use.
- Adjusts to fit any wheel up to 22".
- Folds flat for easy storage.
- Supports up to 400 pounds.
- Non-slip step surface.
- Sturdy aluminum construction.

Part #	Description
TH2100	Tire Step

Bed Hopper

Tailgate Step

Fits Any Truck

Folds away inside tailgate when not in use.

Supports up to 400 pounds.

- Unique tailgate step for pickup trucks.
- Unfolds to provide a handy step midway between the ground and the truck, for easy access to truck bed.
- Fits any tailgate, square nose or round nose.
- Folds away inside tailgate when not in use...not visible when tailgate is closed.
- Compact design does not reduce cargo space.
- Light, but tough... step weighs in at 2 pounds, but supports up to 400 pounds.
- Easy installation.
- Stainless steel hardware provided.
- Rugged, non-slip step.
- Constructed of high-strength aluminum alloy, anodized or powder coated for complete corrosion protection.

Part #	Description
TS2000-01	Tailgate Step, (Silver Satin Anodized)
TS2000-02	Tailgate Step, (Black Powder Coated)

Rugged, non-slip step.

Universal Disappearing Melrose Rack Roof Rack

1 SKU
Fits Any Vehicle

- Conventional roof racks are so difficult to install and remove, that you just leave them on.
- Now your "close to zero drag" vehicle has a lot of drag and a lot of wind noise.
- The Melrose Rack goes on in minutes, and when you've unloaded your "toys", literally disappears.
- The revolutionary system is based on four tiny pads (only 1/4" high) permanently fastened to the four corners of your vehicle...car, SUV, van, any vehicle....any make, any model, any year.
- The cross bar towers snap onto these pads in seconds, and now you have the platform for multiple accessories provided by Yakima® or Thule® that will accommodate bikes, kayaks, skis, snowboards, cargo baskets, etc.
- One SKU covers every possible vehicle....it's truly universal.

Can be mounted directly to tonneau covers or truck caps.

Part #	Description
ML2900	Melrose Rack System

6 Patent Pending

Can be mounted to flat surfaces.

Can be mounted to curved roofs.

ASSEMBLED
RACK GOES
ON & OFF
IN A SNAP!

Melrose Rack works with both round and rectangular bars.

steps

How the Melrose Roof Rack can be removed in seconds.

1 Cross bar towers snap onto pads.

2 Unlock with key, lift the release and the catch will disconnect from the pad.

3 The pad is the only part left leaving your rooftop clean and aerodynamic.

With racks and rails removed, only the small pads are left, keeping the car looking like the designers wanted it to look...sleek and uncluttered. Rack and rails go on and come off as one unit, eliminating disassembly and reassembly.

Mounting pad can be painted to match your vehicle's rooftop.

7

Universal

Maggie Rack

Roof Rack

FITS A **BUG**
TO A **HUMMER**

This Universal System can fit any model, any make, any year, and any vehicle.

Raised feet allow mounting pod to fit any roof.

Pods pivot with ball joints to allow full contact across the length of any roof, no matter how flat or round.

Rail rotates in pod so that, no matter what angle the pod is at, the rail track is parallel to the ground.

Maggie Rack can be installed on flat surfaces such as a camper shell, or rounded surfaces such as a VW Bug.

Compatible with Yakima® and Thule® accessories.

1 SKU
Fits Any Vehicle

- Platform for Yakima® and Thule® accessories.
- One model fits roof of any vehicle....car, SUV, van, RV....any make, any model, any year.
- Rails rotate in pods so that no matter what angle the pods are at, the rail track is parallel to the ground.
- Maggie Rack fits any vehicle roof, from a rounded compact to a flat, full-size vehicle.
- 48" rails can be cut to conform to any vehicle rooftop, allowing for a completely custom fit.

Part #	Description
MR3700	Maggie Rack 2 rail platform system - Silver
MR3750	Maggie Rack 2 rail platform system - Black

48" Rails come in Silver and Black

Receiver Mounted Taxi Bike Rack

ITS A TAXI
FOR YOUR BIKE!

TEST

1 SKU
Fits Any Vehicle

- Unique monorail design, unlike any other receiver-mounted bike rack available.
- Hold 4 bikes of any size or style securely.
- Folds up and out of the way against the vehicle when not in use.
- Allows driver to reach rear cargo without removing the rack from the vehicle.
- Bikes are mounted without front wheel removal.
- Telescoping and ratcheting arm allows for full contact with front bicycle wheel, regardless of the size of the bike.
- Beautifully designed and crafted from anodized 6063 T-6 aluminum, the Taxi Rack is the most stylish bike rack on the market.
- One SKU fits any vehicle with standard 2" hitch.
- 2-bike extension is available, for total capacity of 4 bikes.

Part #	Description
TR300-01	2 Bike System
TR300-02	2 Bike Extension

Rear wheel holder pivots to accommodate any bike style and any size.

Three points of contact, telescoping arm holds tire against tray and retainer.

Folds up against the back of the vehicle when not in use.

2-bike extension slides into integral receiver of the 2-bike system.

Unigrip

Truck Bed Bike Rack

- An amazing system that holds up to four bikes in the pickup bed, with:
 - No drilling of truck bed or rail.
 - No removal of bike front wheel...bikes go in standing up....no problem with front wheel brake system.
- Fits any pickup truck, long or short bed, foreign or domestic.
- Mounts in 2 minutes.
- No expensive, cumbersome receiver or ball hitch required.
- Can be used with or without bedliners.
- Bikes never touch each other.
- Security system provided.

Bikes mount with front wheels on.

Part #	Description

- Vinyl covered spring steel clip firmly grips 7/8" to 1" tubing.
- Clips easily to lawn chairs, bicycles, baby strollers, wheel chairs, umbrella poles, camera tripods, etc.
- Rotates 360°, to mount on any tube, from vertical to horizontal and any point in-between.

Part #	Description
T705-01C	Drink Holder/Flush Mount (Black)
T706-01C	Drink Holder/Clip Mount (Black)

Flush mount

At Top Line, We're Passionate About Three Principles:

1. The design of innovative new products. We don't like any "me too" products in our catalog. Our motto is "NEVER FOLLOW".
2. The design of "universal" products. We want our distributors and dealers to have the fewest possible SKU's.
3. Our products are made with pride right here in the U.S.A

After that, we work hard at manufacturing the highest quality products. Then we package them in gorgeous four color cartons that stand out at the dealers, and explain all the features to the potential customer.

In our "off time", we're rather fanatical about animal rights. Most of us have dogs or cats, and we relish the joy and love they bring to our lives. Some of our many animal companions are pictured on this page.

Strangely enough for a product development and marketing company, this is our favorite page in the catalog.
