# [ our story ]

Our starts were humble with a big dream, starting with a team of only of two, we've grown rapidly to be one of the leaders in the automotive LED lighting industry. Expanding our business to over 35 talented employees and to a new 25,500 sq. ft. warehouse, and we don't plan on slowing grown. With a larger warehouse, we plan on developing many more exciting new products that we can't wait to show you. And we are not just establishing ourselves domestically, we are expanding our reach to Canada, South America and Europe, and anywhere else the off-road community lives. We simply combined our expertise in business with our experience with off-road lighting to create Xprite.

The word has gotten out about us in the local off-road communities. If you didn't hear about us yet, you will. And we plan on attending many more shows throughout the United States so everyone will know who we are. We want to thank everyone who has helped us grow our company, from our talented employees to the local off-road community who has helped us improve our products with their valuable thoughts and suggestions and to design new and improved ones. We are a company that truly caters to our customers. Thank you off-road nation for helping us become who we are.

# Jeep Wrangler Grilles

Xprite aftermarket grilles are inexpensive way to give Jeep Wrangler a more aggressive and appealing look. Made of high quality ABS plastic, they are durable and will resist fade. Coming in matte black finishes, they're ready to be sent to the paint shop. Equipped with our LED lights for Jeeps to complete the off-road look and functionality that all desert runners desire. With multiple styles available, you are certain to find the right look for your Jeep. Choose between mesh or no mesh design.

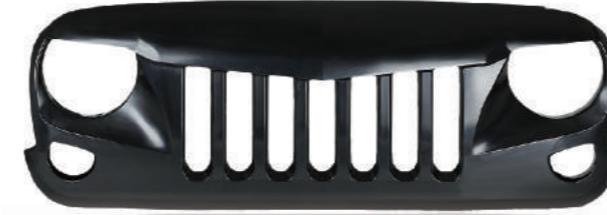

- Made of lightweight and durable ABS plastic
- Will not fade
- Installs in less than 10 minutes
- Ready to be painted or wrapped
- Choice of mesh or no mesh
- Designed to fit with any stock or aftermarket lights

# Rooftop Strobe Lights

Xprite rooftop strobe lights are one of our most popular strobes. They are very bright, durable, and most of them install in just Seconds. Made for security and law enforcement, but can be used for various applications. With multiple strobe and flashing patterns, you can change the modes with just the touch of a button instantly. Sealed tight, these lights are weather-proof and will operate in extreme heat or cold. These mini bar strobe lights can be seen from up to 1/4 mile away, and our large light bar up to 1 mile away.

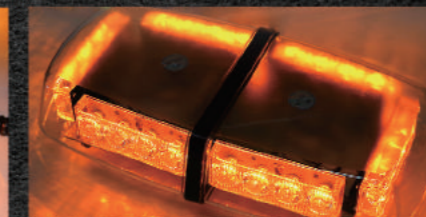

- Multiple strobe and flash modes
- Power source: Cigarette Plug or Battery
- Mount: Magnets or Bracket
- Last pattern recall and memory function
- Weather-proof, shock-proof, dust-proof, rust-proof
- Efficient heat dissipation
- LifeSpan:50,000 Hours
- Change patterns at the touch of a button

# Beacon and Sirens

Xprite beacon lights are the easiest way to throw a bright and quality strobe light onto your vehicle, with the magnets for mounting and cigarette plug for power, you'll be ready to go in seconds. They include several strobe and flashing modes with a brightness that can be seen from a half mile away. The magnet mounting apparatus allows you to remove the light from your vehicle in seconds, when you don't require it. Made for law enforcement and security, but can be used in various applications.

Our siren and PA systems are one of our new product lines. They are built to be incredibly durable, to withstand impact and shake. With multiple siren modes, a hand-held mic, ports for strobe lights, you'll have everything you need. Made for law enforcement and security, but can be used for many applications. Universal for vehicles, boats, etc. Choose between 100W and 200W kits.

## BEACONS

- Multiple strobe and flash modes
- Plugs right into your cigarette lighter
- Universal fitment with magnets
- Last pattern recall and memory function
- Weather-proof, Shockproof, dust-proof, rust-proof
- Efficient heat dissipation
- LEDs rated at 50,000 hours
- Visible from 1/2 mile away
- Change patterns at the touch of a button

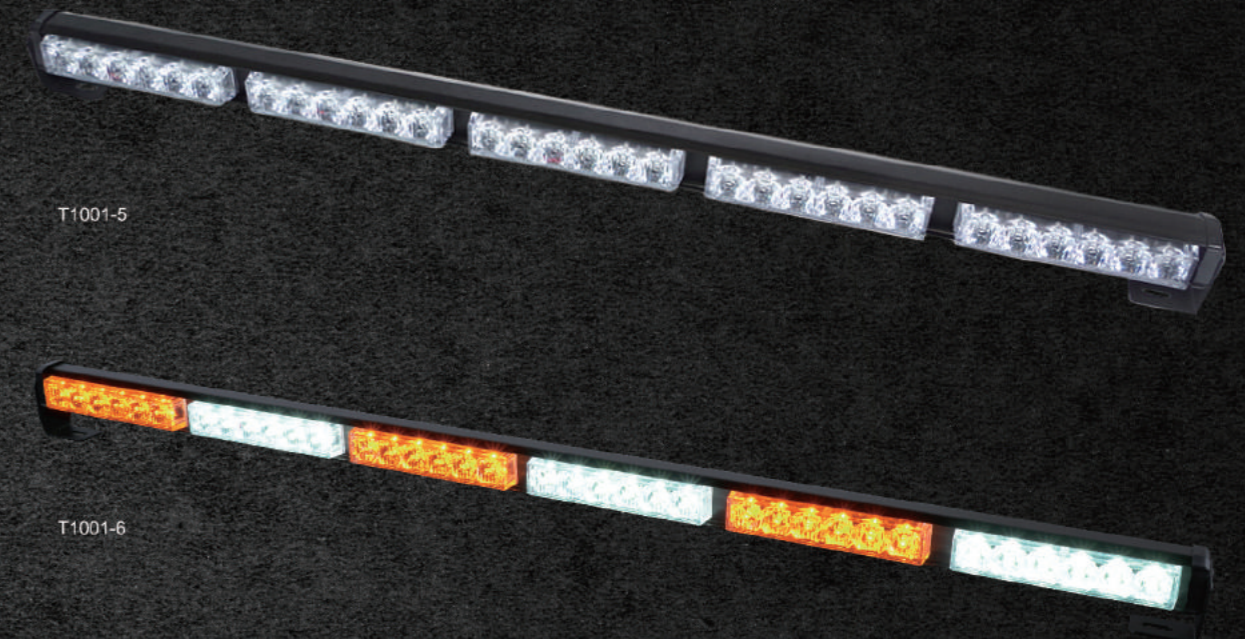

## SIRENS

- Heavy duty, durable construction
- Universal fitment
- Hand-held mic
- 150 Db
- Shockproof, dust-proof, rust-proof
- 6/8 Ohms SPL
- Audible from 1/2 mile away
- Change sound patterns at the touch of a button

# Strobe light bars

Xprite strobe light bars that we offer are one of our best sellers for law enforcement and security strobes. Designed for emergency and traffic advising, they have multiple patterns to direct vehicles. Just like our other strobes, change the pattern with the touch of a button. The light bars themselves are weather-proof and can withstand harsh conditions. Straight-forward installation and use, makes it very simple to throw onto your vehicle and go.

- Multiple strobe and flash modes
- Universal fitment
- Weather Proof, shock-proof, dust-proof, rust-proof
- Efficient heat dissipation
- LEDs rated at 30,000 hours
- Visible from 1/2 mile away
- Change patterns at the touch of a button
- Durable construction to withstand impacts and shaking

# ROCKLIGHTS

One of our newest lights are the LED rocklights. Their purpose is to illuminate the surrounding area under your off-road vehicle so that big rocks are visible at night, and with RGB technology you can change the light to any color you like via bluetooth. With features such as time setting, music sync, and flashing modes, these are a great way to make your vehicle stand out from the rest. With a heavy-duty construction they're virtually indestructible. Lights are incredibly bright and easy to install.

- 16 million colors RGB
- Pair to your phone via Bluetooth
- Universal fitment
- Heavy-duty aluminum construction
- Toughest glass to endure impacts
- Waterproof rate: IP68
- Shockproof, dust-proof, rust-proof
- Efficient heat dissipation
- Time setting, music sync, flashing modes available
- Easy installation
- LEDs rated at 50,000 hours

# Car/Truck LED Accent Lighting

Our premium LED accent lighting can make an exciting addition to your car or truck. Get the job done quick and make your car or truck the center of attention. ABS construction, IP67 Waterproof Rated, 50,000 hour LifeSpan. Lighting Pods can be mounted by screws, zip ties, or 3M Tape.

- LED Decorative Lighting Kit
- Can be used for Interior Exterior
- Bright SMD LEDs
- Universal fitment
- Waterproof rate: IP67

# Motorcycle Headlights

Safety, as well as looks, are important for all bike riders and Xprite LED headlights are one of the best ways to upgrade the look and brightness of your bike, and with the added brightness at night comes safety. Be noticed at day or night when you turn on our headlights. Whether your style is chrome or black, we have the headlight for you. Choose from chrome or black colors and with or without DRLs. We have 7" and 5.75" headlight options.

Match the headlights with Xprite auxiliary passing lights to achieve the complete look. Which also come in black and chrome to match. Our passing lights shine in a spread to light up your left and right side. Also, 6000K white and 2700K amber colors are available.

Equipped with Xprite 7" headlight brackets for Harleys, you're ready to experience the boom in brightness over stock.

- 300% increase in brightness over stock halogens
- Vision over 150+ yards
- Plug and Play
- Scratch and fade resistant Everclear lens
- 50,000 hour rated LED
- Military-grade aluminum body
- Built-in Canbus and H4/H13 adapter (headlight)
- Aluminum & Black bracket fits 7" headlights

# LED Work Lights

Xprite LED work lights are a fantastic way to upgrade your lighting. With the universal nature of our lights, there are various applications and uses available. From off-road vehicles, boats, camp sites, work sites, law enforcement, UTVs, motorcycles, and more. With many options available, from small 2" 10 watt lights to 9" 96 watt lights, cube and round shapes, CREE and Epistar LEDs. Including our newest 60 watt with 4D lens designs. Whether you're looking to give your vehicle a different look, or you need more lighting for your work site, at the inexpensive prices it's a no brainer.

- High-intensity LEDs with increased output
- Aluminum alloy housing will last and not fade
- Durable construction can operate from -45°C to +85°C
- Waterproof rate: IP 67
- LEDs rated at 50,000 hours
- Versatile lights with multiple applications such as off-roading, camping, boating, work lighting, and more
- 2700K amber and 6000K daylight white
- Spot beam: 30 degree & Flood beam: 60 degree
- Low power consumption
